valuation

There are no exams in this course owever we will have regular quizzes and you will be required to write P publication style research papers n addition you will be given and expected to complete a number of assignments throughout the semester. These assignments are intended to "exercise" some of the skills that think are important for you to learn ecause it is not possible to complete all of your experiments and assignments in class you should expect to devote extra time outside of class.

inal course grades will be determined by applying the following weights to the scores that you receive

Paper
Paper
ral Presentation
ssignments
Quizzes
ttendance
Participation

mportant ates

n addition to the due dates for papers and assignments which will be announced in class there are some other dates to keep in kind and W There is no class on these dates

ate ssignments Papers

ssignments and papers are due on the due date in class unless announced otherwise ate work will be accepted but with a substantial penalty unless <u>prior</u> arrangements have been made with me and or the T The penalty for all late work is one letter grade for each class session late f an assignment is due on a onday for example and you turn in the assignment after class later that day you will lose one letter grade. Try to turn everything in t is better to hand something in late for a reduced grade than to not hand it in at all for a zero

ourse Withdrawal cademic onesty and Student ehavior

Please consult the University atalog for more detail on these policies. There are two things will highlight though academic dishonesty including plagiarism will not be tolerated and there will be severe consequences if see either and be polite and respect others even if you disagree with their opinions
