- 4. *Grading::* The grading system incorporates the "plus" and "minus" grade system. The grading system is described below:
 - a. Following each of the three exams, the score distribution will be divided into letter grades. The exam letter grade is assigned a numerical value as follows:

A -=10 $B = 8$ $C = 5$ $D = 2$ $B - = 7$ $C - = 4$ $D - =1$ b. The assignment of letter grades (and their corresponding numerical value) to each exam will be based on the following percentage scale: 93% or more = A 90 - 92% = A- 86 - 89 = B+ 83 - 85% = B; 80 - 82% = P	A -=10 $B = 8$ $B - = 7$ $C = 5$ $C - = 4$ $D = 2$ $D - =1$ b. 	$80 - 82\% - B^{-}$ $76 - 79 = C^{+}$ 73 - 75% = C $70 - 72\% = C^{-}$	90 - 92% = A- 86 - 89 = B+ 83 - 85% = B; 80 - 82% = P			

Note: These percentage cut-offs for grading exams will not be considered absolute. A modified grade curve may be used to assign letter grades to each exam NOTE: 2nd_Revision_1/30/2014 Course Outline (following 2 snow day cancellations)
