The purpose of this practicum is to provide an introduction to participation in a clinical supervision team. As a first-year student in this practicum course, your role will be largely observational. In this course you will be provided with the opportunity to observe more advanced second-, third-, and fourth-year students (a) present their assessment and/or therapy cases to the supervising psychologist, (b) develop and articulate case conceptualizations of assessment and/or therapy clients, (c) receive feedback and supervision on case conceptualization, assessment, and treatment planning from psychologist and peer supervisors, and (d) incorporate evidence-based assessment and/or therapeutic techniques into their clinical service plans. In an active role, you may be asked to assist the student clinical trainees in conducting literature searches of the evidence base, serving as a clinical confederate to assist in the delivery of clinical services, and other activities as deemed appropriate. The touchstone of this practicum will be the use of empiricist TisMMA

The Title IX Office will then contact you regarding your rights, your option to participate in the investigation, interim safety measures and/or academic accommodations, and the need to proceed with an investigation (even if none is requested). Your participation in the process is voluntary. You may call 419.530.3152 to file a complaint or visit the following website for more information and resources: <http://www.utoledo.edu/title-ix/>.
