Creating and Maintaining UpToDate Accounts

A personal account is now required to get remote access to UpToDate and the account must be created on a UT Campus, in the ProMedica Affiliation area, or by using the Virtual Lab. We *strongly encourage* you to create the account using a personal laptop or computer.

Tip: Do you have an account with UpToDate? If you are not sure, an easy way to check is to click on UpToDate from the Mulford website (https://www.utoledo.edu/library/mulford/). If you see a blue and/or an orange subscribe box or green UpToDate box in the upper right hand part of your screen, *scroll up slightly* and click on **login** with your personal account information. If you cannot get into UpToDate, Follow the steps below to create your UpToDate accounts on-or-off campus!
